It was sent the other day. Micka raised the issue and it was already shared with Sara.

Jillian was asking to send it to Sara in HQs. I was explaining why it would be ok to send it to her. She is our connection to HQ's TMDL program.

It isn't going to the public. They need to develop a communication strategy before we will release it.

She is inside EPA and would not come under FOIA. She is our liaison with HQs for the TMDL program. That said, we could tell her that we are still reviewing it. It is not a bad idea to get a HQs read on it so Jim Havard et al can ask their questions. Before it goes out to the public, it would have to be reviewed by HQs, EPA counsel and DOJ

**Subject:** RE: Anacostia Trash TMDL

Micka,

We can certainly share the paper but I am not necessarily going to commit to holding it for her review as our council has already looked at it and I believe that we have identified it as deliberative, not to be release under FOIA.

Having said all of that, in terms of timing, Cathy is traveling and most likely will not send it upstairs right away.

I made a couple of tweaks. The final with today's date is attached and also in the share drive folder.

M

**Subject:** FW: Anacostia Trash TMDL

Michelle,

HQs is asking to see the briefing paper before we send it up to Cos because this is litigation related. See Sara's emails below. She is our 303(d) HQs liaison and is still very new, so don't get tripped up on her mischaracterization of who Cathy is. I had informed Sara of our trash TMDL activities during our biweekly check-in call and did not have an opportunity to mention this during our briefing yesterday.

Let me know if it is ok to send to her.

Micka

Hi Micka,

Thanks for your email. Because of the litigation, Jim H would like some of the Watershed Branch folks and potentially Jim C. to review the briefing materials before Cathy is briefed. Let me know when you're free for a phone call once you have a chance to think this over and we can discuss your timeline for briefing Cathy and how we can fit in our review before then. Thanks,

Sara

Hi Sara,

The briefing was yesterday. Our Division Director wanted to share the options with our RA, so that is our next step. You are correct, we are still a ways off from having something to share externally and will send your way when we are given the ok to do so.

Thanks for circling back with Damon, we appreciate it.

Micka

Hi Micka and Jen,

You mentioned today that you will be briefing the Division Director on options for revising the Anacostia trash TMDL. Can you remind me when this briefing will take place? I think Jim would like an update on the feedback you receive and the general direction you think you're heading before you send a summary of the approach to interested parties. I'm sure we have some time before that happens but just wanted to give you a heads up of Jim's interest. Thanks,

FYI, I tried to stop by Damon' desk today for an update on Cheryl Atkinson's question re: the Anacostia toxics task order. I will try again tomorrow.
